Subject: Product discontinuation - ROBA-linearstop | Type 381. | Size 2, 4, 6

Dear mayr® partners worldwide,

We would like to inform you that we will discontinue our series **ROBA-linearstop Type 381** in sizes **2 / 4 and 6** from active sales.

Last Order Date: 29.02.2020

After the Last Order date the series production will end and the purchase is possible only as a spare part at service conditions.

In this phase, the price and availability of the product must be checked on a case-by-case basis!

The discontinuation includes all standard types and customer-specific special versions, as well as all optional equipment variants and accessories from the current type range.

Clearance of the stock: January 2021 (planned)

Alternative

ROBA-linearstop Typ 381.			
size 2	→	Size 20	comparable holding force, piston rod d16 mm
Size 4	→	Size 20	same piston rod d16 mm
Size 4	→	Size 30+40	comparable holding force
Size 6	→	Size 30+40	same piston rod d20 mm
Size 6	→	Size 40+60	comparable holding force

If you have any questions, please contact your sales manager.

best regards
